Office/Department	Office of Data and Innovation (ODI)
Unit/Section	CallInnovate
Classification	Senior Product Manager
Working title	Senior Product Manager
Position number	418-100-0218-XXXX
Prepared date	06-24-2024
Effective date	
Name	Vacant

### General Statement

Under the administrative direction of the Acting Deputy Director for Product, the Senior Product Manager is an expert advisor and is responsible for the planning, development, and implementation of products, services and statewide policies, standards, and procedures associated with and directly related to digital service delivery, adoption, maintenance and capacity building. The incumbent will advise the Directorate, in the strategic direction for multiple digital service products or services that substantially improve the ability of Californians to interact with their government and for our partner agencies to deliver on their missions. The incumbent will lead product visioning, strategy, planning, and management throughout the product life cycle, coordinate new features and functionalities, optimize product strategy and roadmaps, and utilize agile methodologies to guide technology and design projects. The incumbent will lead cross-functional teams of engineers, designers, researchers and data analysts to develop and deliver digital service solutions. The incumbent plays a significant role managing and communicating with stakeholders and working with the Directorate to develop priorities and practices pertaining to projects, strategic planning, technical direction, resource management and program delivery.
